6D Pipe Expander

6-way – because more just means better – **Just 1 expander and everything included**

With the new 6D pipe expander, you are prepared for any situation or downspout on the construction site. No matter what pipe diameter you need, you can expand all standard pipes with this pipe expander. The 6D pipe expander comes in an outdoor case.

Simply have everything with you at all times and save yourself effort, energy, and time!

Packaged:

All inserts are well protected in a foam insert in a waterproof (IP 67) and lockable outdoor case.

Cordless

Works with a standard cordless screwdriver.

Effortless:

Little force required to expand and hold the downspout.

Comprehensive:

One expander, six diameters
Ø 60 / 76 / 80 / 87 / 100 / 120 mm.

Easy:

Simple adaptation to all standard downspouts.

Runs:

Pulls itself in and out again. Automatic propulsion thanks to special roller geometry.

One for all
