

A close-up photograph showing a person's hands operating a silver metal bitumen cutter. The cutter is being used to cut through a roll of dark grey bitumen. The person's hands are visible, one holding the handle and the other guiding the roll. The background is slightly blurred, showing more of the bitumen roll and a person's arm in a black sleeve.

**Your New  
Bitumencutter**

# Because you really get it tight with it

If you regularly cut the heavy bitumen sheets and change the cuts frequently, you want to save time and play it safe at the same time - for your team and for the roof itself. The Bitumen Pro is the perfect tool for this.

Flat Roof Specialist**

# Bitumencutter Bitumen Pro

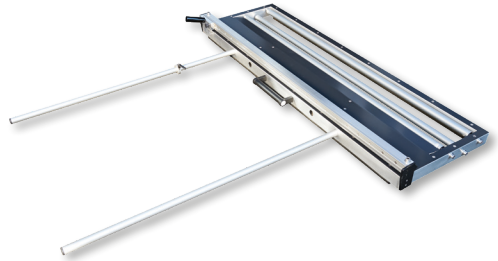

by biegetec

## Application

**Precise perfectionist: Cuts bitumen sheets precisely, the same way every time, and really fast!**

## Advantages & Comfort

- Accurate: Makes perfect straight cuts
- Time-saving: No more marking, but faster cutting than by hand
- Flexible: Quickly adjust and perform changing cuts
- Light and handy: Made of aluminum, weight less than 15 kg
- Space-saving: Many cuts can be made without unrolling the roll completely
- Safe: No more risk of slipping, as the robust blade is guided automatically
- Compatible: Standard hook blades are used
- Universal: Suitable for bitumen and PVC and FPO membranes up to 1250 mm wide

Item no. 03380000

Application Video

Item no.	Working width	Dimensions	Weight	PU
03380000	1250 mm	1430 x 460 x 135 mm	14,95 kg	1
