**MasterCut[®]
Slate- & Fibre
Cement Cutter**

Hold it the right way round

Our award-winning masterpiece: You cut fiber cement tiles with the centimeter scale pointing upwards. And for slate, simply turn the MasterCut® upside down! For easier cutting than ever before and maximum work safety.

Get the MasterCut® for your next construction site!

"The MasterCut cuts the slate cleanly and straight. You can even mark on the right side so that the break edge is on top."

**Torsten Freund,
Master Roofer**

Slate- & Fibre Cement Cutter MasterCut®

Application

Robust Expert: Cuts and punches slate and fiber cement tiles up to 7 millimeters thickness!

Advantages & Comfort

- Flexible: Cuts fiber cement slates with one side and natural slate with the other one. Simply turn over
- Convenient: Integrated hole punch with a stable and unbreakable spring
- High quality: Die-cast aluminum body, easy to maintain
- Robust: Despite its multiple usability, MasterCut® consists of only a few components
- Safe: Protects the hand from pinching when cutting
- Ergonomic: Pleasant soft grips for smooth work
